HIGH SCHOOL STUDENTS CO-OPERATE IN PLANT SURVEY

State-Wide Survey of Plant Disease Inaugurated—Local School Looking After Mason County.

The U. S. Department of Agriculture, in co-operation with the Kentucky Experiment Station is making a Plant-disease Survey of Kentucky. This, as the name indicates, is a survey to collect and identify all the plant-disease organisms found in the State. The biology and agriculture classes of the Maysville High School, under the leadership of C. S. Dale, Principal of the High School, have assumed the task of supplying specimens from Mason county. In order to do this successfully every farmer, gardener or citizen, who is interested in seeing the economic loss, due to the ravages of disease organisms reduced to a minimum is urged to co-operate.

You can do this easily with great interest to yourself and profit to the community by following these simple instructions: First, learn the symptoms of plant-diseases. Nearly all diseases are caused by microscopic non-green plants called fungi. The fungi affect the plant on which they live in various ways which are recognized as rust, smut, mildew, wilt, rot, scab or leaf spot. Now when you notice any of the symptoms on your vegetables, crops, grasses or on weeds by the roadside or elsewhere, gather parts of the plants affected and if they are small leafy plants, put the specimens between newspapers, and weight to dry it if it should be a branch of a tree, or a bracket fungus, (which grows on trunks of trees) it is not necessary to dry it. Write the date of collection and common name of the plant from which you obtained the specimen on the margin of the newspaper or on a tag to it. At your convenience, bring your collections to the Chamber of Commerce or the High School and they will be forwarded to the Experiment Station at Lexington.

A mistake was made in the name of the car that ran into the cemetery fence, Oakland and Overland sounding so much alike, but the name of the car is Overland, and the first initial of the man's name is Julius, so come across Julius without further waste of valuable time and ease your mind.

BABY SMITH

Mr. and Mrs. W. E. Smith of East Second street, are the proud parents of a fine baby daughter born Saturday.

MRS. SARAH ALEXANDER DIES AT NASHVILLE

Aunt of Maysville Woman Dies Following Operation Which Develops Cancer—Funeral at Nashville.

Relatives here were advised by wire this morning of the death last night at her home in Nashville, Tenn., of Mrs. Sarah Alexander, who before her marriage was Miss Sarah Lawrence.

Mrs. Alexander had been ill for some time and was undergoing an operation for appendicitis when it developed that her trouble was cancer and death soon followed.

She was a sister of Mrs. Ben P. Poyntz, of Covington, formerly of this city and also a sister of Mrs. Waters Howe, of Orlando, Fla., as well as an aunt of Mrs. James B. Wood, of Forest avenue. Mrs. Alexander was a woman of fine Christian character and greatly loved by her many friends here. Two summers ago she was the guest of Mrs. Poyntz and Mrs. Wood here for the summer and at that time made many friends in Maysville.

Mrs. Poyntz left her home at Covington this morning for Nashville. The arrangements for funeral have not become known here.

BOAT LEAVES MANY IN CINCINNATI

There was quite a crowd of Maysville and Mason county people who took the excursion on the steamer Verne Swain to Cincinnati Sunday and those who were on the trip seemed considerably peeved Monday morning. It is understood the boat reached Cincinnati at about 1:30 p. m. and left on the return at about 3:30 p. m. More than one hundred people were left in Cincinnati because the boat left on its return so early and had to come home on the C. & O.

WASHINGTON MEMORIAL IS QUITE IMPRESSIVE

The Memorial services held Sunday afternoon at the Washington School building in honor of Joseph C. Davis, Washington man who gave his life in the world war, were very impressive. The entire program was good and Mr. Reed's address was beautiful. The Maysville Boys' Band again covered themselves with glory.

BUYS HOME IN CINCINNATI

Mr. W. F. Thomas, of the Murray & Thomas Company, of this city, has purchased a beautiful home in Cincinnati where his son is now a student in the Cincinnati University. Mr. Thomas is located most of his time just now at the Paris office of the Murray & Thomas Company.

35c GAS GREATEST CHANGE IN THE NEW LIGHT CONTRACT

Maysville Gas Company Has Contract Ready to Submit to Council Committee—Great White Way Provided For in New Agreement.

Attorneys representing the Maysville Gas Company have completed the tentative contract with the City of Maysville for gas and electricity for heating and lighting and the contract will be submitted to the Gas and Electricity Committee of council for the first time at a meeting which will be held tonight.

The contract makes very slight increases in prices and only increases as one would naturally expect with the tremendous advance in everything. The price of gas is what most people are interested in and the price under the proposed new contract gives Maysville 35 cent gas, only an increase of 5 cents a thousand cubic feet.

The stipulations as to prices in the proposed contract are as follows: Street Lighting under the present system:

91—400 candle power lights @ \$65 per lamp per year.
40—100 candle power lights @ \$27 per lamp per year.
51—80 candle power lights @ \$22 per lamp per year.
38—60 candle power lights @ \$20 per lamp per year.
Electric Light Rates to Consumers: First 30 hours 10c per K. W. Hour. Second 30 hours 8c per K. W. Hour. Balance of consumption 5c per K. W. Hour.
Minimum Bill \$1 per month.

Discounts:

10% on monthly bills between \$10 and \$20.
15% on monthly bills between \$20 and \$30.
20% on monthly bills between \$30 and \$40.
25% on monthly bills over \$40.
Electric power rates:
Up to 10 horse power demand \$1 per h. p. plus 3 1/2 cents per K. W. hour.
Up to 30 h. p. demand \$1 per h. p. demand plus 3 cents per K. W. hour.
Over 30 h. p. demand \$1 per h. p. plus 2 1/2 cents per K. W. hour.
Natural gas:
Light, heat and power 40c per 1000 cu. ft.
Minimum bill 50c per month.
Prompt payment discount 5c per 1000 if paid before the 5th of month.

The last section of the proposed contract deals with the proposed White Way for the business district and the company agrees to place orders immediately for equipment and to install it as soon as possible to furnish 56—400 candle power lights on steel poles on Second street between Wall and Limestone and on Market street between Front and Third. These lights will be approximately 90 feet apart and those between the squares will be turned off at 11:30 each night. Those on the corners will burn all night. Under this section of the contract the rates on street lights as set out in the first section of the contract are reduced materially and the following schedule is adopted under this provision:

400 c. p. lamps turned off at 11:30 p. m. \$50 per lamp per year.
400 c. p. lamps burning all night \$65 per lamp per year.
100 c. p. lamps all night \$22 per lamp per year.
80 c. p. lamps all night \$20 per lamp per year.
60 c. p. lamps all night \$18 per lamp per year.

This contract is only tentative and may be changed as to the last section at the meeting of the committee but as the majority of the business men and citizens seem to favor the Great White Way proposition, it is thought that this section will be retained in the contract.

COUNTY AGENT HAS STENOGRAPHER

County Agent George Kirk has employed Miss Phoebe Huron as his stenographer. The detail duties at the County Agent's office were taking up too much of his time and keeping him out of the field. A new arrangement will be made at the Chamber of Commerce building and more room will be given to the County Agent in the building. The County Agent will also take over the auto bus delivery station.

MAGISTRATE'S COURT

Monday was Squire Fred Dressel's regular monthly court day but there was little business transacted. Most of the cases on the docket were continued until the next term of court.

Mr. LeRoy Davis of Cincinnati is in the city for a short visit with his brother, Mr. William O. Davis, of West Second street.

CENTENARY DRIVE TO CONCLUDE TUESDAY

\$602,102 Reported Raised by Methodist Church; \$15,898 Is Needed.

The Kentucky Conference of the Methodist Episcopal Church, South, which is conducting a Centenary campaign for \$620,000 for missions was within striking distance of its quota last night when total reports showed that the conference had raised \$602,102 leaving only \$15,898 to be raised.

Throughout the day W. W. Ball of this city, conference director, was receiving reports from various districts which totaled \$55,855. Last night it was announced that the drive would be continued until Tuesday night by which time officials expect the quota will have been raised.

Reports of the various districts of the conference received last night were as follows: Covington district \$133,934; Lexington District, \$110,782; Maysville District, \$109,706; Danville District, \$105,201; Frankfort District \$84,198; Jackson District \$24,595 and the Shelbyville District \$55,636.

FIREMAN KILL RATTLES WITH DISINFECTANT

The rattle snake which has been on display in Gallenstein's window for the past several days was killed this morning a very unusual way by Fire Chief Ruffell Newell and the firemen. How to kill the rattle without removing it from its screen covered box was quite a mystery until the firemen told of using disinfectant to kill rats. The serpent was removed to the Washington Theater lobby and there given a good dose of the liquid used about the theater and the fire hall and in a short time Mr. Snake turned over to the sun.

WOMEN'S MISSIONARY UNION MEETS TUESDAY

The Women's Missionary Union of the Bracken Association of Baptists holds a district meeting at the Lewisburg Baptist church Tuesday. This will be an all-day meeting and delegates from all of the unions in the Bracken Association will be in attendance. Several from Maysville plan to attend.

NOTICE

Any one having any note or claim against the estate of Mrs. Fannie A. Hays, deceased, is requested to present the same to the undersigned Executor, duly authenticated, for payment. Any one indebted to said estate, is requested to call and pay.

J. F. BARBOUR

FUNERAL TUESDAY

The funeral of Mr. J. B. Riley, who died at his home on Forest avenue Saturday afternoon, will be held from the home Tuesday afternoon at 2 o'clock with services by Dr. B. B. Bailey, of the First Baptist church and burial will be made in the Maysville cemetery.

FEDERAL COURT AT CATLETTSBURG

Judge A. M. J. Cochran went to Catlettsburg this morning where he opened the regular term of Federal Court. United States Marshal Cox passed over the C. & O. Sunday from Covington with twenty prisoners who will be tried there.

DESERTER DELIVERED TO CAMP TAYLOR

Chief of Police Harry A. Ort left this morning for Camp Zachary Taylor, Louisville, having in charge Elzie Pettit, Maysville boy who recently left that camp without leave of officers for the fourth time since his being drafted last year.

GREAT OVATION IS GIVEN IN ENGLAND OVER HERO'S RESCUE

Hawker and Grievé Picked Up By Danish Steamer, Are Landed at Scotland.

London, May 26. — Harry Hawker and Mackenzie Grievé set foot on British soil today, nearly a week after they had been given up for lost in their attempt to fly from Newfoundland to Ireland in a Sopwith airplane.

The aviators, who are the greatest national heroes of the moment, landed at Thurso, Scotland, from the British destroyer Revenge. The Revenge took them from the Danish tramp steamer Mary, which picked them up in mid-ocean early last Monday, after they had been forced to descend to the sea.

Hawker and Grievé were scheduled to start this afternoon from Thurso for London, where they will be given a royal welcome tomorrow. Britain has been jubilant ever since the news spread like wildfire over the land that Hawker and Grievé had been saved.

Grievé, immediately upon landing, sent this message to his parents: "Safe; will wire later."

When news of the rescue first was received the Sopwith Airplane Co. telegraphed Thurso for information. Later it was confirmed by an airplane courier.

"We had given him up for lost," said Mrs. Grievé, when she heard the news of her husband's rescue. She was too overcome to say more.

Grievé's native town, Ffosfof, took on a carnival appearance. As the news spread there was great enthusiasm throughout Britain. There were remarkable scenes in the streets, in concert halls and in moving picture theaters when the announcement of the rescue was made. Crowds cheered and tossed hats in air.

A throng gathered around the home of Hawker, near London. The town was beflagged as it has not been since the war.

At the church, the evening service was one of thanksgiving.

"For this is my son who was dead and is alive again, who was lost and is found," was the text of Rev. T. J. Wood. There were special prayers and psalms of thanksgiving and the doxology was sung.

Mrs. Hawker received a telegram of congratulations from the king and queen, who a few days earlier had sent her a telegram of condolence on the supposed death of her husband.

CLERK FOLLOWS LONG ESTABLISHED PRECEDENT

City Clerk Adair Says He Entered Vote of Councilmen on Garbage Collectors' License Just as Has Always Been Done.

City Clerk Robert Adair in commenting on the ruling of Police Judge John L. Whitaker on Saturday when the city's garbage collectors' license ordinance was held invalid, says that he entered the vote in this case as has always been done in similar cases heretofore and he was following a long established precedent.

This being the case, it appears that all of the license ordinances issued by the City Council are invalid and it is more than likely that there will be an extensive investigation into this matter and council may be called upon to pass orders validating those ordinances when the council meets the next time.

The present status of the garbage collection proposition in Maysville is that although no have an ordinance providing for the collector, his license is really not a license for the ordinance providing for it has been declared invalid.

FLEMINGSBURG COURT DAY

Today being regular monthly court day at Flemingsburg attracted many Maysville and Mason county people to the Fleming county capital. Much added interest was taken in the Flemingsburg court this month because of the appearance there of Governor Jas. D. Black, who was to speak in the interest of his candidacy for the Democratic nomination for Governor.

MRS. ANDERSON'S FUNERAL

The funeral of Mrs. Anna Letitia Fox Anderson was held at Dover Monday afternoon and burial was made at that place. Many local relatives and friends attended the funeral.

Everybody should have an Atlantic Bench Wringer. The best made, ball bearing, enclosed cogs. \$1 down and 50c per week. Put this useful article in your home.

CONCRETE MAY BE PLACED BETWEEN CAR TRACKS IMMEDIATELY

Specifications For Concrete Paving Between Car Rails in Market and Second Streets Received—Expense Would Be Very Light.

Concrete will probably be adopted by the special committee of council as the proper paving to be placed between the car rails on Market and in West Second street.

Specifications were received by the committee Monday from an engineer who came here several days ago at the request of the Maysville Street Railway Company to look into the matter. Concrete is probably the cheapest and most satisfactory sort of paving for this section of the street, which in its present condition has been quite unsightly for some time and which is now becoming very dangerous especially to automobiles.

For several months a special committee from council has been working on the matter with representatives of the Street Car Company and Mayor Thomas M. Russell, who is chairman of this special committee, announced today that he was positive that an agreement could be reached that would give the city a satisfactory street.

The estimated cost of the concrete paving in this unpaved section of the two streets is about \$1.50 per running foot. An agreement will probably be reached whereby the car company will pay a part of the cost, the city a part of the cost and the adjoining property owners the balance. Splitting the cost into three equal parts and the city paying for that section in front of cross streets, alleys, city property, etc., the cost of the construction will be about 25 cents a front foot to the adjoining property owners and there is not a one living and owning property on these streets who would not willingly pay even more than that amount to have the section paved and to remove the mud holes the car tracks become in wet and rainy weather. A meeting of the special committee will be held at once when the big problem will be finally solved.

Messrs. Robert Goggin, of Paris and Lexington and Lawrence Horton, of Paris, were here Sunday to attend the funeral of Miss Tillie Chambers at Washington.

The ordinance of baptism was administered to three candidates at the First Baptist Church Sunday evening.

DEVONIA

AQUA REMEDIUM AMERICANA

\$200.00 IN GOLD

For A Slogan

WE WANT A SLOGAN FOR DEVONIA—SOMETHING WITH PUNCH AND SNAP TO IT—ONE THAT REALLY SUGGESTS THE BENEFIT THAT COMES FROM USING DEVONIA.

AND WE ARE GOING TO PAY \$200 IN GOLD TO THE PERSON WHO SENDS US THE BEST SLOGAN.

THAT WILL BE MORE MONEY FOR LESS EFFORT THAN YOU EVER MADE BEFORE IN YOUR LIFE. THINK OF IT; \$200 FOR A FEW WORDS!

BUT DEVONIA, THE MOST EFFECTIVE OF ALL MEDICINAL WATERS THE WORLD OVER, IS WORTH IT—WORTH YOUR BEST THOUGHT AND EFFORT. PUT ON YOUR THINKING CAP, GIVE US THE BEST SLOGAN AND WIN THAT \$200.

What Devonian Is

Devonian is an American medicinal mineral water.

For years the medical profession has depended largely upon the remedial properties of foreign mineral waters. Now, in Devonian we have a natural mineral water containing medical properties in greater proportion than any other known American or foreign mineral spring.

No other water we have ever seen has a record of such helpfulness to the ailing from the diseases mentioned below, and for which it has been so eminently successful.

Constipation—This is common to a large proportion of Americans, who as a people are noted for their carelessness in diet.

No matter how advanced these cases, Devonian seems to have brought relief. If you are suffering from Constipation or other form of stomach trouble, try Devonian and see how gently yet effectively it corrects those conditions that cause constipation.

Rheumatic Affections—For centuries most "aches and pains" were called Rheumatism. Now we know that these affections are the result of a multitude of causes. In these affections Devonian has a wonderful record.

High Blood Pressure—This might be called the disease of the American Business Man, working as he does under high pressure and a nervous strain unknown to any other people.

If Devonian had done nothing else, its success in cases of this sort would be sufficient to make it famous.

Hardening of the Arteries—A disease, known medically as Arterio Sclerosis, which usually affects those past middle life. Complications of one sort or another, usually accompany it, and unless relief is obtained, there is an early job for the undertaker. Devonian has been found to be very effective and, as in other cases, we have the positive proof of its great helpfulness.

Eczema—It was through healing a most aggravated case of Eczema that the healing character of Devonian was discovered. Skin affections of most every kind have been helped by Devonian.

If you are suffering from any of these or kindred ailments, or have an afflicted friend in whom you are interested, write us for the desired booklet on that subject. Use Coupon on this page.

These booklets are carefully written and have been passed upon by medical authority which is sufficient guarantee to you that the statements they contain may be depended upon. We do not use any statement without having on record the facts and know that they are authentic.

Unlike most other mineral waters, Devonian comes to you just as it comes from its natural source a thousand feet underground.

It is not condensed, nor is there anything added to it.

Physicians have sometimes doubted that there could be a natural mineral medicinal water so rich in curative properties, but we have never failed to convince the most skeptical on this point. The analysis on this page shows you what it is.

Report of analysis made by Prof. George A. Ferguson, of the Ferguson Laboratories, New York, Official Chemist, Internal Revenue Service, Treasury Department.

Grains in One U. S. Gallon	Grains in One U. S. Gallon

In addition to the above the water contains small amounts of Lithium, Bromides, Iodides and Borates. Absent in ten (10) cubic centimeters.

FERGUSON LABORATORIES.

(Signed) GEORGE A. FERGUSON.

Now, bear in mind that Devonian is not a cure-all; nor do we claim it is. But there are certain things for which it has so regularly demonstrated itself to be helpful, that we are certain it may be depended upon for the purposes mentioned. Another thing Devonian is not a drastic cathartic. Such waters are condemned by physicians because they are apt to do more damage than good.

If you need a drastic cathartic, and people sometimes do, you should take it only under the direction of your physician. But for a mild laxative that will restore bodily functions to normal action, Devonian has proved its efficacy.

We said that Devonian was rich in medicinal properties. So truly is this the case that a tablespoonful in a glass of ordinary drinking water is the usual amount prescribed by physicians and following their lead, that is the amount we recommend your taking at the start. Afterwards, you can increase or lessen the amount as you may find best suited to your needs.

Taking this amount, then, we find that a quart bottle contains about 64 doses, making the cost only about a cent and a half a dose. Thus Devonian is not only the most effective medicinal mineral water in the world, but it is the most economical.

CONDITIONS OF CONTEST

As a matter of fact, there are none. We ask you simply to get posted as to Devonian, find out what it has done and what it will do, and then use your ingenuity and cleverness in composing a slogan that we can use.

You do not need to buy anything. But, of course, we naturally think the better you know Devonian, the stronger slogan you will be able to write.

Neither is there any limit to the number of words, but we want it short. If you can say what you want to say in four words or less, better than in five, do it. A short slogan usually carries more conviction than a longer one. But what you select is up to you. Here are some examples of slogans you have probably seen elsewhere: "Ask Your Doctor," "It Does the Work," "There's a Reason," "Why Not Now?" and a host of other short ones. Try to beat them for brevity and forcefulness and get the \$200 in gold. Should you want to send in more than one slogan, you may do so, but put each slogan on a separate coupon. For our convenience we ask you to use the coupon in the upper left corner of

this page, though that is not compulsory.

As we want only one slogan, we do not offer a prize for any rejected slogans. It is understood that all slogans submitted to us become our property whether they are accepted or not.

No member of this firm or anyone connected with it can compete—so try your skill. In case the winning slogan is sent in by more than one person, the prize will be divided.

The judges will be the officers of The Devonian Mineral Spring Company, Mr. Thomas E. Basham, president of the Thomas E. Basham Company, our advertising agents; and the advertising managers of the four Louisville daily papers.

All slogans must be in our hands by June 1 to receive consideration. The announcement will be made as soon thereafter as the judges can reach a decision and their decision will be final.

Mail your slogan to The Devonian Mineral Spring Company, Incorporated, Executive Offices, Owensboro, Ky.

CLEAN-UP WEEK

ANTIQUITY OF DECORATIVE ART

Strange Sources From Which Pigments Used by Modern Painters Are Derived.

PRESERVATION OF SURFACES.

Crude but Effective Processes Employed by the Egyptians and Greeks of Pliny's Day—Noah Prudently Waterproofed the Ark.

Whether paint was invented in answer to a need for a preservative or to meet a desire for beauty is a question fully as knotty as the ancient one about the relative time of arrival of the chicken or the egg. It was invented, though, and it serves both purposes equally; so whether it is an offspring of mother necessity or an adopted son of beauty remains forever a disputed question.

The first men, covering under the fierce and glaring suns of the biblical

countries, constructed rude huts of wood to shelter them. The perishable nature of these structures caused rapid decay, and it is probable that the occupants, seeking some artificial means of preservation, hit upon the pigments of the earth in their search. It is perhaps natural to suppose that it was the instinct of preservation that led men to the search, although the glories of the sunsets and the beauties of the rainbow may have created a desire to imitate those wonders in their own dwellings.

The earliest record of the application of a preservative to a wooden structure dates from the ark, which was, according to the Bible, "pitched within and without." The pitch was a triumph of preservation whatever it lacked as a thing of beauty.

Decoration applied to buildings first comes to light with ancient Babylon, whose walls were covered with representations of hunting scenes and of combat. These were done in red and the method followed was to paint the scene on the bricks at the time of manufacture, assuring permanence by baking. Strictly speaking, this was not painting so much as it was the earliest manifestation of our own familiar kalsomining.

The first Hebrew to mention painting is Moses. In the thirty-third chapter of the book of Numbers he in-

structs the Israelites: "When ye have passed over the Jordan into the land of Canaan, then shall ye drive out all the inhabitants of the land from before you and destroy all their pictures."

At later periods the Jews adopted many customs of the peoples who successively obtained power over them and in the apocryphal book of the Maccabees is found this allusion to the art of decorating: "For as the master builder of a new house must care for the whole building, but he that undertaketh to set it out and paint it, must seek out things for the adorning thereof."

Although Homer gives credit to a Greek for the discovery of paint, the allusions to it in the books of Moses, the painted mummy cases of the Egyptians and the decorated walls of Babylon and Thebes fix its origin at a period long antecedent to the Grecian era. The walls of Thebes were painted 1,900 years before the coming of Christ and 900 years before "Omer smote his bloomin' lyre."

The Greeks recognized the value of paint as a preservative and made use of something akin to it on their ships. Pliny writes of the mode of boiling wax and painting ships with it, after which, he continues, "neither the sea, nor the wind, nor the sun can destroy the wood thus protected."

The Romans, being essentially a warlike people, never brought the decoration of buildings to the high plane it had reached with the Greeks. For all that the ruins of Pompeii show many structures whose mural decorations are in full shape today. The colors used were glaring. A black background was the usual one and the combinations worked thereon red, yellow and blue.

In the early Christian era the use of mosaics for churches somewhat supplanted mural painting. Still, during the reign of Justinian the Church of Saint Sophia was built at Constantinople and its walls were adorned with paintings.

In modern times the uses of paint have come to be as numerous as its myriad shades and tints. Paint is unique in that its name has no synonym and for it there is no substitute material. Bread is the stuff of life, but paint is the life of the stuff.

No one thinks of the exterior of a wooden building now except in terms of paint coated. Interiors, too, from painted walls and stained furniture down to the lowliest kitchen utensil, all receive their protective covering. Steel, so often associated with cement reinforcing, is painted before it goes to give solidity to the manufactured stone. The huge girders of the skyscrapers are daubed an ugly but efficient red underneath the surface coat of black. Perhaps the best example of the value of paint on steel is found in the venerable Brooklyn bridge, on which a gang of painters is kept going continually. It is scarce possible to think of a single manufactured article which does not meet paint somewhere in the course of its construction. So has paint grown into the very marrow of our lives.

Austrians are said to be demanding the restoration of Emperor Charles.—Toledo Blade.

MAYSVILLE, KY.

Election Notice

Pursuant to an order of the Mason Fiscal Court, a special election will be held in Mason County, Kentucky, on SATURDAY, JUNE 14, 1919, between the hours of six a. m. and four p. m., at which election there will be submitted to the voters of Mason County the following question:

"ARE YOU FOR A PROPERTY TAX OF TWENTY CENTS ON EACH \$100 WORTH OF PROPERTY IN THE COUNTY TO BE LEVIED EACH YEAR FOR THREE YEARS FOR THE PURPOSE OF IMPROVING OR CONSTRUCTING, EITHER OR BOTH, THE ROADS AND BRIDGES OF MASON COUNTY?"

Voting booths will be opened in the various precincts of the county on said day.

CHARLES E. GALBRAITH, Sheriff.

Points in the Moline's Favor

There are many points in the MOLINE'S favor when the question of what Farm Tractor to buy comes up. To put them all in print would make a long, long story—but to make a long story short—

POINT 1—The MOLINE is the ONLY tractor with electric lights and self-starter. You don't have to quit important plowing or other work just because the sun goes down. Just turn on the lights and keep right on. The MOLINE will work 24 hours a day for you. Never mind the weather. If it rains on Monday, you can do 2 days' work on Tuesday to make up for it.

POINT 2—The MOLINE is the ONLY tractor that cultivates the seed in the soil.

POINT 3—The MOLINE is the ONLY tractor that reverses and goes around a stump or rock. You drive the MOLINE same as an automobile. Drive backward as well as forward.

POINT 4—The MOLINE is the ONLY tractor that cultivates two rows at a time.

POINT 5—The MOLINE is the ONLY tractor that can be turned around in a 16-foot circle and can be put in a small-sized shed.

POINT 6—The MOLINE is the ONLY tractor that has a device to lock the differential and give perfect traction in soft ground.

POINT 7—The MOLINE is the ONLY tractor that will start and finish a field without a horse.

There are SEVEN points—"one for every day in the week." For more "points" or a demonstration, phone, see or write

Reliable CLOTHES!

AT PRICES THAT KEEP FAITH WITH THE PUBLIC

When it comes to buying clothing now, a man must be strict in his quality demands.

Nearly all clothes are good looking when they are new. The big idea today is to get clothes that are reliable without paying an exorbitant price.

Such famous makes as KUPFENHEIMER, STYLERUS, HIRSCH, WICKWIRE & CO. can be trusted to be right in every respect—the hidden parts are made of good materials and their shape holds up.

If you have never bought your clothing at this store you owe it to yourself in these times to inspect our splendid stock of men's and young men's clothing for Fall and Winter.

Geo. H. Frank & Co.

Maysville's Foremost Clothiers.

PRETTY WEATHER FOR BIG CLEAN-UP CAMPAIGN HERE

First Day of Clean-Up Campaign Is Quite Successful—First Ward People Co-operate.

At last we are to enjoy that period of sunshine and spring that we have been hoping for, for many weeks. Those that were privileged to attend the open air memorial service at Washington Sunday will all bear witness to the fact that the sun gave just a little more warmth than was necessary.

With the spring and the blossoming flowers and nature adorning herself with her new spring clothes, we are all awakened with that desire for new and better things for our homes and family.

The Clean Up and Paint Up Campaign being inaugurated and carried out by the young women of the Settlement Club comes at just the right time for spring sunshine awakens that desire to clean up and spruce up. Every respectable man and woman of Maysville can't resist the temptation to join in this move for the pride of each spurs these on to seek and be satisfied with only the best, for their home and family.

No person can say that they can't afford to pay the cost of curbing the rubbish away from their premises, as the City Administration has made ample arrangements to have all rubbish carted away free of cost to those that comply with the requirements, to have the rubbish piled on the street in front of their residences on the day the wagons are scheduled to be in your ward.

Street Commissioner Ben Smith, in charge of the work for the city, reports that a great deal of rubbish was hauled from the First ward today and the wagons will begin early tomorrow morning on the Second ward. On Wednesday the rubbish will be hauled from the Third ward. Don't wait till midday to place the rubbish out in front of your house or you may be missed. It is impossible to give a schedule setting forth the hour the wagon will be on certain streets as it will be better for you if you place the rubbish on the street, early in the morning.

The girls of the Settlement Club are very anxious that the citizens remember that only rubbish is to be carted away and you must arrange other methods of disposing of your garbage.

The citizens of the First Ward have entered very enthusiastically into this Clean-Up Campaign and Chairman Zorada Cochran expresses her hope

DATES FOR MASON COUNTY'S S. CONVENTION ANNOUNCED

Minerva Christian	20

From State headquarters comes the announcement that Mason county's Sunday school convention will be held June 17th, place not given. However, every school should be getting ready to send a good delegation to this convention. Nothing will stimulate the work like the workers getting together in a conference of this kind. A state worker will be in attendance, and there will be an excellent program. It is hoped by that time some arrangement can be made whereby we may be able to give a full report of the attendance of every school in the county. It is such an easy matter to just call the attendance secretary, phone 217, and give the attendance. Do it next Sunday. The Sunday Schools are all watching each other to see the gains and losses from Sunday to Sunday. Push always for gains.

From the Epworth Adult Bible Class of the Third Street M. E. Sunday School comes this important announcement:

Attention Epworth Adult Bible Class, Third Street M. E. Church

You who were not present last Sunday to hear Mr. Ben Greenlee on "Loyalty" missed a rare treat. Well, you don't want to miss Tuesday night's feast. Every member is expected on the church by seven o'clock. An election of officers takes place; after which you and your friends will enjoy a social hour. The Brotherhood Class will be expected promptly at 7:30. Bring a friend.

THE EPWORTH ADULT CLASS
PROF. T. J. CUREY, Teacher.
MRS. J. H. DODSON, President.**TAX COMMISSIONERS MAY FINISH ON TUESDAY**

The Maysville City Tax Commissioners hope to complete their work at equalizing the city's tax assessment by Tuesday so that the Assessor can complete his work this week and have figures ready for the Ways and Means Committee to make out their city budget on next Monday before the meeting of the City Council.

that the citizens of the other wards lend their encouragement by co-operating with the committee in this—first—effort in such a worthy endeavor.

MISUNDERSTANDING OF PROPOSED ROAD TAX IS GREAT

Fiscal Court States in Communication—Objections to Proposed Road Tax Answered.

The Mason County Fiscal Court issues the following authorized statement:

Discussion on the 20c road levy has brought out the fact that there is quite a lack of understanding of the proposed assessment throughout the county, and it is the sense of the Fiscal Court that every means should be employed between now and the date of election to bring the full facts to the attention of all voters and appeal to their sense of fairness in considering the additional burden that will be imposed upon the taxpayers if they refuse to accept the Federal aid that is now offered by the government.

The Federal aid represents taxes already collected by the government from taxpayers of this and other states and it would be folly for Mason county to refuse to accept their own money now in government hands for the construction of roads in this county and to permit the funds to be taken up by some other county or state that was progressive enough to meet the government's offer of dollar for dollar. It is pointed out, furthermore, that there is a strong movement on foot to induce the next Legislature to vote a general 20c road tax applying to every county in the state, and where counties have not already exercised the option of voting the tax before the General Assembly meets, the taxpayers will be forced to pay the assessment in a general levy and Mason county will be too late at that time in applying for Federal aid. If Mason county does not make some provision to supply the necessary fund to meet the offer of the government, not only the Federal aid now offered will be turned over to some other county, but Mason county will not be able to secure any Federal aid at any future time.

It has been discovered by the good road advocates that propaganda is abroad to misrepresent the amount to be assessed under the proposed tax. Either innocently or intentionally, several taxpayers have referred to the assessment as a 20 per cent tax. The proposed tax represents an assessment of only 20c on the \$100 worth of real estate, or \$2.00 per \$100.

A few voters have complained that the tax will not be applied to the intersecting roads between the main highways, and that they will not vote for the assessment. One taxpayer who made such a complaint was asked how he reached the city. He said that he drove over to one of the main pikes and had a good road all the way to town. When asked what he would do if his side road was built to equal the main pike and the big highway allowed to go to pieces, he said that he had not considered it from this angle, and that he presumed the real increase in value that his property had gotten from the good roads had come from its proximity to the main highway. He was also given estimates on highway construction and readily convinced that the present road income was not sufficient to build a high type of road on all intersecting highways and maintain your main pike.

Your Fiscal Court intends, as stated before, to keep together their old road fund for the maintenance of the side pikes and the rest of the main pikes until they can reach the main thoroughfare with permanent pikes. Every mile of permanent turnpike reduces the cost of maintenance on that particular mile, and in this way the old road fund gradually increases, the same to be applied to the rest of the macadam pikes of your county.

A vote against this tax is a vote against your own interests, so in considering the proposition, weigh it

COMMITTEE NAMED BY SOLDIERS

Messrs. Wadsworth Clarke, Albert Capron and Ben Middleman have been named a committee by the Soldiers and Sailors Association of Mason county to have charge of the decoration at Beechwood park for the Memorial Day celebration to be held next Friday. Messrs. Stanley F. Reed, Wadsworth Cole, Newell Stickley, James Threlkeld and Harry Otto have been named a committee to draft a Constitution and By-Laws for the Association to be presented at the meeting on the Fourth of July.

BAND STAND PLENTY LARGE ENOUGH

It was thought Sunday that considerable changes would have to be made in the new municipal band stand to accommodate the band. The original plans were changed by the committee several days ago reducing the size of stand materially. Investigations this morning disclosed that the amended plans were satisfactory and would be plenty large enough and work will go forward immediately.

thoroughly, as this is one of the most important things with reference to local advancement that has come before the voters in many a day. A vote for this tax is a step in the right direction, as it opens up a great national highway for the farmer with his products, which national highway is the good roads from the farmers house to market.

CARNIVAL LEAVES

Although the Liberty Shows which held forth in this city last week had their city license paid until Wednesday of this week, they pulled up stakes and left Maysville Sunday for points in West Virginia. This is the smallest carnival that has ever shown in Maysville in recent years.

FOREST AVENUE IS OVER TOP

Rev. W. H. Morris, pastor of the Forest Avenue M. E. Church, announces that this church Sunday went over the top in their Centenary subscription by raising more than \$5,000.

Charles Simms was awarded the one dollar prize for having the largest pile of rubbish in the First Ward this afternoon by Miss Annie M. Cusey, who acted as judge.

The Mite Society of the First M. E. Church, South, will hold its regular meeting next Wednesday at 2:30 o'clock. All members requested to be present.

Mr. James Purdon, of Pelham street, who suffered a stroke of paralysis some two weeks ago, is improving very nicely and is able to sit up.

Mrs. Ada Yazell and family have moved to Maysville from the Orangeburg neighborhood and have taken up their residence in Lee street.

Mrs. Robert Petticoat of Louisville, is the guest at the home of Mr. and Mrs. R. K. Hoefflich on Edgemont.

Cataract Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrh of the ear, and that is by a constitutional remedy. Catarrh of the ear is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be removed and this tube restored to its normal condition, hearing will be lost forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrh of the Ear that cannot be cured by Hall's Catarrh Medicine. Circulars free. J. C. Hall, Inc., Toledo, O.**PASTIME TODAY**
